Press release: Hengst is GM Supplier of the Year 2016

April 2017

## Hengst is GM Supplier of the Year 2016

### General Motors Honors Supplier for the Second Time

A great honor for Hengst Filtration: Muenster-based company Hengst is the “GM Supplier of the Year” for the second time. General Motors presented the supplier with its greatest honor for suppliers – one of the most established in the global automotive industry – on March 31 in Orlando, Florida. GM management was unanimous in its decision to distinguish Hengst among over 20,000 suppliers. Even more pleasing to the supplier, this year is the 25th anniversary of the award, which was accepted by Olaf Ley, Group Director Sales OE Passenger Cars, and Howard Boyer, CEO of Hengst of North America, Inc.

GM distinguished the supplier thanks to its high level of quality, cost optimization activities, excellent series support, and Hengst’s innovations and support in development projects. The manufacturer is very pleased.

The parts developed and produced by Hengst are extremely compact system modules featuring a high degree of functional integration, and can be found in the Opel models Astra, Insignia, Cascada, Mokka, and Adam as well as the Chevrolet Cruze and Trax.

Olaf Ley (Group Director Sales OE Passenger Cars) and Howard Boyer (CEO Hengst of North America) accepted the prize in Orlando.
